

A photograph of three people (two men and one woman) standing in a laboratory. They are wearing black t-shirts with the 'Proseed' logo. The man on the left has a yellow logo, the man in the middle has an orange logo, and the woman on the right has a white logo. The background shows laboratory equipment like a microscope and shelves with bottles.

## CALL FOR PROJECTS

We support UAS graduates.

# FIRST VENTURES

LAUNCH YOUR OWN SPIN-OFF!

Ready to take risks and found your own company? Then apply to “First Ventures”.

We aim at encouraging entrepreneurial bachelor’s and master’s students eager to launch their own spin-off, turning new ideas into innovative products and services. Up to CHF 150,000 are available per business project coming from universities of applied sciences.

Gebert Rüt Stiftung does not only provide financial support but also an individually tailored training programme. You will learn how to successfully put your business idea into practice and gain access to a broad startup network.

If you get funded, you will have full budget responsibility while being employed at your UAS.

**Submission deadlines:** 1 February, 1 May, 1 September, 1 December
